ABOUT ME

UI/UX Designer with a strong background in Graphic Engineering and extensive leadership experience in fast-paced environments. Years of managing teams in high-pressure roles have made me highly resilient, strictly deadline-oriented, and deeply empathetic to user needs. I excel at combining creative problem-solving with an organized approach. Having recently completed an advanced UI/UX design course, I am eager to apply my technical design skills to build intuitive, user-friendly digital products and bring strong organization and value to your team.

EXPERIENCE

GRAPHIC DESIGN/ **NEWPRESS SMEDEREVO**
MAY 2012 – AUG 2014

Work on design and printing flyers, business cards, billboards. I am especially proud of the magazine I was completely in charge of, the choice of theme, design, and the complete look of the magazine.

GRAPHIC DESIGN/ **DESIGN STUDIO BELGRADE**
DEC 2009 – JAN 2011

Designed impactful visual identities and custom logos by collaborating with clients to translate their business goals into clean, vector-based designs.

GAME ARTIST/ **EPIX NOVI SAD**
MAY 2008 – NOV 2009

Created high-quality 2D assets and environments from concept to final render, collaborating with developers to ensure seamless integration into the game engine

EDUCATION

GRAPHIC ENGINEERING AND DESIGN
SEP 2003 - JUL 2016

Faculty of Technical Sciences, Novi Sad

IRONHACK BOOTCAMP **UI/UX DESIGN**

Intensive program focused on user research, wireframing, prototyping, and high-fidelity UI design. Gained hands-on experience by completing end-to-end design projects and conducting usability testing.

SKILLS

- UI/UX Design
- Wireframing & Lo-Fi Prototyping
- Visual & Graphic Design
- Handling Critique & Stress
- Design Tools
- Information Architecture (IA)
- Cross-Functional Collaboration
- Collaboration

TOOLS

- Figma
- Adobe Creative Suite (Photoshop, Illustrator, InDesign)
- 3D max (Animation)

ACTIVITIES

Passionate about following digital design trends, exploring emerging UX methodologies, and reviewing case studies. I balance my digital work with hands-on creative projects like jewelry design and sewing, which continuously refines my sense of color, composition, and craftsmanship.
